

WENRA Issues

Hans Wanner
Chairman, WENRA

Hans Wanner, WENRA Chairman

Scope of the stress tests

- Targeted reassessment of the safety margins of NPPs
- Extreme natural events challenging the plant safety functions
- Focus on severe accident

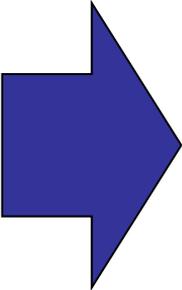

Implementation

- Operators, Regulators, Peers
- Extremely challenging schedule / resource deployment
- “First of a kind” exercise
- Big international coordination effort

Role of WENRA

- Independent regulators' organization
- Foster harmonization of requirements
- Development of stress test specifications
- Address issues emerging from the EU stress tests:
 - Develop practical guidance
 - Improve WENRA safety reference levels

Way forward

- *Pro memoria*: Safety = Process of continuous improvement
 - Peer review results:
Recommendations / Good practices
- 
- Implement recommendations
 - Consider Good practices
 - Improve safety
